REVISED - Beach Parking Plan for the Sea Pines Beach Club
and Plantation Golf Club

Effective Memorial Day Weekend through Labor Day Weekend 2020

As a result of the Coronavirus and social distancing recommendations that are in place, the Beach Club parking plan will be modified from the original plan, at least on a temporary basis. Additionally, at this time trolley and shuttle service is not available for safety precautions.

Sea Pines Property Owners and Registered Guests of The Sea Pines Resort

Sea Pines property owners and registered guests of The Sea Pines Resort will continue to have priority parking at the Sea Pines Beach Club during daytime hours from May 22 through September 7. Once the 50 complimentary parking spaces required by covenants are filled by parties who have the "right of access" per *Article 1 of the 12/22/77 Beach Club Covenants recorded at DB 258 P 233 ("Beach Club Covenants)*, the remaining spaces will be available exclusively and at no charge to guests of The Sea Pines Resort and Sea Pines property owners owning an undivided, full interest in property. If the Beach Club parking lot becomes full, these property owners and Resort guests will be afforded complimentary parking at the Plantation Golf Club.

Overnight Guests and Others with Right of Access

During daytime hours from May 22 through September 7, vacation rental guests and others with the "right of access" would be limited to the 50 available parking spaces required under the Beach Club covenants at the Sea Pines Beach Club. Once those 50 parking spaces are filled, said parties will not be allowed to enter the Beach Club parking lot, but may park in the designated parking area. The designated parking area will be at the Plantation Golf Club into June, providing that this location can accommodate the influx of vehicles.
