Place the decal at the top center (A) of your vehicle's windshield.
It shouldn't obstruct sensors, cameras, or windshield wipers.

Your decal may also be affixed to the top driver's side edge (B) or the bottom driver's side edge (C) (near the VIN number).

Ensure that the application site is clean and dry.

Once your decal is affixed, allow 24 hours before washing or driving in inclement weather to allow it to properly adhere to the surface of the windshield.

Replacement decals may be obtained with the original decal returned (even if in pieces). A replacement fee applies for all annual decals. If the original decal cannot be returned, a new decal will need to be purchased at the current price.

Commercial signage and advertising must be removed or covered from 7:00 p.m. to 7:00 a.m.

Decals that are not properly affixed may be confiscated and loss of decal privileges may result for a period of up to one year.

All SPCSA decals are and remain the property of
Sea Pines Community Services Associates.
