Phone: 203.858.0934

Candidate Information:

I am a mother, grandmother, and wife with a 50-plus-year career. I grew up in Geneva, NY. I earned a BA in psychology from Connecticut College and an MBA from the University of Rhode Island. My finance career began at EY, where I earned my CPA. I eventually became CFO of several major companies.

My husband and I raised 3 daughters – a surgeon, a venture capitalist, and a communications expert. We first visited HHI in 1986 and became Sea Pines property owners in 2014, putting our house on the STR market until 2021, when it became our primary residence.

I am currently a director/advisor for public companies, a trustee of both my alma maters, a current CSA director, and a member of the CSA Finance Committee. My recognitions include Institutional Investor's Best CFO, FEI's CFO of the Year, and URI's Alum of the Year.

Why I Wish to Serve the Sea Pines Community:

Three years ago, I asked Sea Pines property owners for the opportunity to serve on the CSA Board. When I won election, I embraced my new duties.

As a CSA Director and seven-year Finance Committee member, I have helped oversee significant infrastructure investments and promoted sound financial management. If reelected, I will focus on disciplined long-term infrastructure planning and rigorous stewardship of property-owner dollars.

I will also continue to promote open, two-way communication with property owners through initiatives such as in-person Town Halls, which I helped initiate for 2027. I am currently working with our finance/accounting team to use technology and AI to improve efficiency and financial analysis.

My goal is straightforward: preserve what makes Sea Pines special, plan responsibly for its future, listen to our community, and ensure that Sea Pines remains financially strong and well-maintained for generations to come.
